Alzheimer's Disease

Worldwide, more than 55 million people are living with Alzheimer's or another dementia.

Join us and the Alzheimer's Association in going purple and raising awareness this June. The more that people know about Alzheimer's, the more action we inspire.

for a greater cause.

~Erica, Touching Hearts

Every day, Touching Hearts at Home, we care for clients with Alzheimer's disease or dementia.

We understand the stress that families face when their loved one no longer "remembers".

Our services help keep the client at home, in assisted living, or in independent living for as long as possible.

Our caregivers are trained to care for seniors with all types of dementia.

We can help with:

- In-home safety
- Wandering prevention
- Sundowning
- Sleepless nights
- Respite care for family
- Bathing, grooming, dressing
- Meal preparation
- Toileting & Incontinence care
- Running errands
- Companionship
- Light laundry
- Light housekeeping

**Send your patients home with confidence.
Touching Hearts at Home will be there.**
